How do I link this experience to our classroom learning?

Kansas Social Studies standards are directly addressed by demonstrations of the ways that pioneers and farmers in the '20's, '30's, and '40's provided for their daily life. Teachers can easily link this learning opportunity to Reading and Writing standards, as well as expanding student learning with follow-up research projects.

The Wilson County Old Iron Club is eager to participate with you in this worthy effort.
